adding this - txdot admitting nov 2015 as they did in nov 2014 that no ADA work will be done for main street salado. And I can assure you that as of this year, no sidewalk or any ada work planned for this year. I sent the 2016 to the state regarding the commercial lacking Ada current salado area and lack of sidewalks, Ada bathrooms- post sewer Ada bathrooms and added no public transportation regarding the Hidden Glen senior housing project. I have just started contacting you about this issue that the dept of transportation ignores and Txdot defends as of may 2014. Every year I have to wait for the Bell county tax appraisal list showing the value, address, and name of owners. I just want to disclose what this area thinks that with their delusions of grandeur and political donations that they keep things the same. Scary but it continues. Thanks again [redacted]

Hope you are well. Bell county has also refusing to disclose who gets billed for sewer and why and who does not along with infrastructure compliance from state and federal law . The previous city administer [redacted] was replaced by [redacted], who is being named in an FBI investigation from her previous [redacted] job in Temple. [redacted] brought the sewer agenda to Salado. I note no Temple Texas gag order applied to [redacted] after she resigned from her 2nd job before resigning a third time in Salado. She resigned from her city manger job in College station. What exemptions from any state and federal law does Salas's have again to implement non disclosure? I can name countless political donor connections tying this salado sewer scam from public corruption but no actual factual legislation and nothing about Salado. Did Salado also the right to exclude residential owners from being billed for the sewer by an address too?

Maybe the state should also ask the village how doing salado sewer searches as of 2013-2014 before the election had Salado residents and out of state developers discussing their real estate developments with a sewer before the election since the obligatory bond residential property owners billed remaining on septic tank population were against the sewer and out numbered votes for one. And I want to add why hasn't the state had bell county and Inc village of Salado disclose their infrastructure terms with a history of licensed inspection passes and revoke the obligatory bond and sewer project until done so along with documenting where a commercial landlord ordinance from the state is not enforced in exchange for an obligatory sewer bond billed to others? Why hasn't the county and state not questioned why Salado inc village never collected building code violation money? Where were the home into commercial space and today expecting a sewer zoning changes and state approval from Johnny's that has a noise complaint outdoor stage that has the village claiming their permit approval, horse feathers home into store, and due to press about beginning work on restaurant all building and board of health passes and the septic tank and area for tceq waste permit plant Stagecoach inn properties inspections and passes today. Stagecoach plant costs more then it generates ....the cost of leasing land from Morris Foster ...
http://saladovillagevoice.com/wp-content/uploads/2015/07/Salado_Village_Voice_07092015.pdf
Why would a village on a septic system dictate a tax rate, lift certain residents taxes to fund a sewer system but have the billed resident stay on septic, set a tax rate for people the village chose , and not be stopped first and reviewed by the state unless public corruption and access to state and federal millions was in the equation? Do Yelp and trip advisor building code and health and ada complaints about commercial spaces Salado get ignored but still qualify for a scam sewer obligatory bond and loan to own leaving debts due to non$$$ for infrastructure requested upfront and still get millions in grants and no oversight? Public corruption rooted in downtown sewer awaiting rundown and not inspected commercial Salado.

Please request full foia terms of compliance disclosures from all agencies involved in buildings and construction ..permits..plans reviewed...licensed code inspections . including agencies for roads, utilities , health board for septic tanks commercial businesses and board of health , and sewer and waste water services, and the American disability act need to show a history of Salado compliance. Until an entire village is reviewed and agrees to have a sewer and create city services and staff a waste plant and figure the cost and effects on property and has an election showing accurate results and funding then the state needs to retroactively have bell county revoke the bond, return grant funds entirely, and reimburse every residence that had the property tax increase their property tax sewer additions . If local commercial buildings actually pass licensed inspections and their American disability act access including parking spaces they along with all developers can go the sewer bond waste plant revenue

bond route that will include continued infrastructure funding.

Not one billable grant dollar should have been spent due to no city service and closed businesses. Bell county health admitted July 2016 that pre nov 2014 election they are not obligated to inspect commercial septic systems and admitted that they did not look at sold business after the bond election. The Texas water board and kasberg engineering both published and are still online their Salado sewer studies 2002 and 2013 (from 2010 kasberg website salado study). All state and federal grant money including the 1.5 million from the Economic development Agency should be returned in full.

The village and central Texas council of governments needs to be investigated and definitely audited.

And I question how a village gag order regarding public corruption due a sewer scam priced in the millions that had the village and ties to politicians enable the corruption not only silenced by the attorney generals office refusing to disclose but now has the root leading back to state and federal millions for a sewer scam and property deals, being silenced. There are roots in the Salado corruption and if pulled out this scam gets stopped. The question is whether you act and stop Salado from moving further with this scam.

Please review. Thanks [redacted]

Subject: Damaged Salado water supply house or irrigation pipe flood & no regulation and city services. Video of Leak . Eda grant given how as-well as tceq waste plant permits to staffless licensed city services Scamalado? Txdot approving no salado response to crumbling roads from bell county residents

I hope you are well. The incorporated village of Salado in bell county does not collect property taxes to create age fund city service infrastructure. We pay per lot private company water supply Salado water supply and garbage pick up through Eagle Disposal or Clawson. There is no Salado dept of streets and Sanitation etc Salado dept of water ...buildings ...health ...housing ...law
Today the village can not get public health review reports regarding our drinking water not with county health department, bell county commissioners, and bell county district attorney [redacted] to have on business to taxation to health to water review and compliance proof done for Salado and this is approved by the state and has Rep Carter and Sen Cornyn working in state and federal grants and involving the sunset commission. Our roads get flooded when we get lots of rain. Chaparral drive is crumbling and we have no barriers protecting vehicles and pedestrians nor lights from the crumbling border to the ditch creek runoff Chaparral drive meeting Lazy Oaks and in the video Brookhollow. Txdot and the bell county roads say that Salado handles this BUT GRANT Millions given to area that has people falsifying property tax dues and not inspecting commercial property including fees for building code health code Ada floorplan and parking violations is enabled. Today we have nothing funding Salado lack of infrastructure including maintenance. How and why would the village earn grant millions and tceq waste water permits? What cross contamination equipment is done in lots today from Salado water supply and what runs into the creek? What is the condition of our drinking water? The state needs to intervene for the public. The inc village of salado needs to be shut down. Property taxes for mill creek and Salado need to be reimbursed retro actively leaving only rural bell county fees. We Pay bell county taxes who claim staffless scamalado responsible for roads but Txdot wants to fund tax abatement money and why??? New areas plus village that until shows all commercial public access meeting state and federal law commercial buildings plus parking including Ada his her bathrooms for public use up to code with retro active violation fees paid or face closure need state review since Henry Garza and bell county allow Salado to act. And since this area scams on property taxes what matching funding does bell county submit to the state from the exempt paying zero Salado residents including veterans not paying property taxes? I did a veteran exemption comptroller foia and received no answer. I added the bell county health inspector answer email below. Today if bell county health sees no salado ordinance versus reality when inspectors doing compliance inspections and no taxes to fund a city service why would the Eda issue a waste water grant and not ask for 1.5 million arrival balance quote when papers stated 1 million and zero history of health building and Ada compliance to be a commercial property in Texas and follow the attorney general Texas commercial ordinance and how could tceq issue approval plans and permits for Salado waste plants? By the way, Salado water supply is not working with the sewer project nor has been asked to supply equipment. Thanks [redacted]

Subject: Fwd: Salado problem lies with bell county health ignoring state health septic and occupation codes and Txdot allowing ADA violations for commercial property and parking to be grandfathered in / village lies and says state health dept does inspections like village lies and says bellcad checks lot county and homestead fraud etc rosa

The state and the election board should dissolve the inc village status of salado and cancel the scam obligatory sewer bond. Here we have bell county health lying with [redacted] saying the state health dept reviews salado health inspections. But the health dept admits that the salado ordinance does not require those inspections and due to places being closed or sold inspections were not done. How could state had federal agencies and code inspections be met with no record of a history of compliance and local access for inspections and review? What laws anywhere exempt salado? And grant funding comes from tax money and salado commits fraud. Where are the building code, health code, the American disability parking to commercial store floorplan and bathroom access that are up to code now ? Where in the Texas attorney general landlord commercial ordinance does it state that failure to comply with services means pass a Salado obligatory bond to the public but BY AGE and BY ADDRESS who are not owners instead and skip all compliance proof? Salado in the Village voice 2015 admitted that landlords were never obligated to empty their septic tanks. Do people only shop here to use a bathroom? Stores here deny the public bathroom access. Landlords bill tenants for maintenance and inspections are not done. And here we have yet another forwarded to the state response from the Texas state health dept saying they don't review Salado health issues but bell county health does and the non existent licensed staff salado code inspectors. The whole salado needs a sewer lie, the whole tax abatement money now with unproven business explanation and proof , the grant funds, the pass bonds that others pay all stem from a landlord responsibility on never inspected therefore not a legal Texas commercial space Salado commercial properties. Txdot is not a building, Ada, and health code inspection salado city service nor does it say that the Ada parking is grandfathered in and changes to commercial problem ridden Salado properties is too costly for multiple property owning owners. And the Texas water board in the foia you were sent Aug 2017 has no KPA engineering as their go to fema service here. All Texas water board emergency and flood services use city services and county. So stafless salado and non responsive bell county to staffless salado need to have state dissolve salado inc and legally review and audit all bell county responses to Salado.

[redacted],

Thank you for having responded. This village has no city services. For example - no streets & sanitation dept.. Depts of buildings, aging, water, plumbing, housing, and having licensed staff as inspectors. Every lot owner whether residential or commercial pays a company for their garbage pick up and our water bills go to the Salado Water Supply. Salado is on a septic tank. Developers setting their sights here require a city sewer. They don't want to pay for it and having failed to show why a Village of Salado which is on a septic tank would be required to fund a developments sewer need creating staffing etc for city services (or claim of outsourcing) and create and find a waste water plant. Why wouldn't the developers not fund what they need? But what has yet to be explaining showing terms of code to election infrastructure being met was the developers not showing what retroactive funding they would have to provide to sustain a sewer plus city department (claim of outsourcing) and waste plant funding. Here in Salado a homestead exemption card was played that did not have any explanation proving why and where in the homestead would a village exclude the need to not fund what the homestead could later tap into - a sewer, show that only one primary home could be claimed as a Texas Homestead, explain why under the age of 65 within a village billing coordinates would property owners have begun to be billed an extra $1000 to their property tax to fund a sewer that no state agency has any plans to set up nor TDLR (tx dept of licensing and regulation) have any Salado nor development building state approved permits to begin spending billed to non owners for commercial property in Main and Royal street Salado. So as of summer 2014 I cc and bccd the state my emails to the village and county asking how a village lacking city services, roads in need to repair and in Chisholm showing a road division with a line or bars, and the commercial properties that lack code compliance and violate the American disability act. What I got back from Txdot and was that Txdot decided that moving the commercial buildings to make way for ada parking was not going to happen and moving buildings that planned to bill residents not the commercial landlord needing a sewer that developers needed " was too costly" - half the universe was emailed [redacted] November 3 2014 email. I wanted the health department to check on the commercial property septic tanks and to question the lack of inspections and question further that in a sewer would the owner also choose to not maintain and since non owners are being I think illegally billed for this sewer would all recipients be providing ADA toilet stalls?

The village and bell county claim that their ordinances do not require septic tank inspections

[redacted] state and federal funds compromised of tax money are being sent to Salado and no building nor health inspection has happened.

I am asking you to understand that a search Salado health violation Salado hazard Salado - would show visitors remarking that the health inspectors look the other way. So asking that I contact the department that as of 2014 never answered until a few dad ago claims what the state codes do not list as a bell county or Salado exception of compliance.

This department has reviewed the forwarded email from your office.

The email has two websites highlighted. Clicking onto either site does not lead directly to a requirement that all commercial properties in Bell County served by an OSSF must show passing reports from the Health District. This department is not aware of a requirement that a the septic tank must be emptied or pumped at a sale, or change of business if leased.

This department is unaware of any Village of Salado ordinance requiring these reports.

If [redacted] can provide the specific wording in the state law she is referring to, we will continue the review of her request.

The three businesses she referred to were attempted to be researched.

Horsefeathers is located at 610 N. Main. It appears to be vacant.

No address was provided for a new brewery. (The food dealers permitting of a brewery or food manufacturer would be done by the State Health Department)

Stagecoach hotel and restaurant are served by a sewer system owned and operated by the Village of Salado and regulated by the Texas Commission on Environmental Quality.

Subject: March 2017 EDA reps visited salado regarding 1 million grant yet met with no city staff nor state agency - how is this legal in congress? Why do Cornyn and Carter enable this corruption ? Donors and cover ups

Salado visited by eda reps for $1 mil grant to guarantee funds secure ?? Eda dept thinks salado is qualified and will use funds for waste plant?MARCH 2017 . Salado has no city staff and commerical properties need code enforcement. The inc village does not collect taxes to fund infrastructure and the town mayor is one of the many doing homestead property tax fraud whilst others pay zero property taxes. Since the tax infrastructure situation needs review then all salado growth and real estate planning need to be halted. Why let an area cheat the state on taxes yet be allowed to bill certain

people and areas for their tax dollars? Please stop the EDA grant until review and proof retro active inc salado for qualification including rep Carter and Sen Cornyn's reasoning with the compliance. Kpa engineers and ctcog belton do not overrule therefore clear salado for codes, tax fraud, Txdot and all state agency review for a obligatory bond to a sewer unless public corruption is I doubt working for free to cover up.

How did salado without review and the property tax fraud as of today remains unchanged to have eda reps meeting with salado? Why would ctcog a non city agency had kpa engineers a non city and non state agency be the liaison? Please intervene and ask for how salado qualified? Did Sen Cornyn intervene with the wildlife fisheries concern about the sewsge pipe and mill creek ? What cross contamination city staff review will happen with water? Since salado water supply is not working with Main Street sewer what no staff today will? Thank you

Hope you are well. I sent the state and agencies the texas dept of licensing and registration tdlr the foia responses regarding planning and permit requested for sewer plans in buildings on main and royal streets and the North carolina developer creating the Sanctuary. I also asked about permits for federal court case defendant alderman fred brown and his claim mentioned in a temple daily telegram article that while a stare rep he had no conflict of interest ties with i think a missouri developer who built senior living Hidden Glen here. [redacted] , creekside meadow have no tdlr permits and property index numbers for those taxes that might have comptroller and two crooked congressmen needing to answer about scamalado money and tax collecting practices. TDLR refused to disclose the stagecoach building permit foia request i made i think two years ago. I hope an investigation has you comparing and contrasting foia responses to what people and agencies provided compliance retro actively. i asked the state auditor and comptroller offices for Rick Perry staff and then [redacted] and i get blocked and i lost count on the sao.texas.gov investigation emails with no follow up. I do get an attorney general call outreach@oag.texas.gov ...and a few tceq emails from [redacted] asking for a call back when i prefer written messages to document. Due to village and county and agencies all claiming salado has its own ordinances but still cant answer where codes and laws exclude salado the state comptroller and the money geing given here with the lack of compliance and oversight why an audit retro active one is not being done. I asked summer 2014 if village press and local newspapers had owner quotes and village staff ones claiming commercial building owners have spent enough money yet no proof then what money would be used to first not catch and close commercial building for code to health to ada no compliance and bill retro actively what money and why bill a non owning resident to replace work and landscaping on commercial slums? A new septic tank today go for $14k and any house being built in salado today would have owner looking at a $30k fee for room to place it. Flooded septic back up home project work and replacement can cost 75k. Commercial building owners pocket rent funds and sale proceeds so why would non residents fund the work? Why pass a bond billed to residents by age and address and not do a revenue bond after property taxes reviewed and bill sewer recipients after property taxes fund infrastructure and their bond not oursCant you review corruption happening? The stare comptroller review and tdlr both cleared salado and bellcad of any tax professional wrong doing collecting since millions in subsidy aid sent to wealthy commercial building owners. I can scan the two 2017/8dated letters . Is it natural for make believe ctcog central texas Council of government who have no city service nor agency credentials nor from foias to fema to agencies with licensed ties to work with an never qualified due to main and royal street commercial properties meeting state and national codes today. Ctcog searches for salado and sewer will document how they held eda and texas am redesign those slums (morris foster exxonmobol and txdot board member and regent chair now board member tamu and former gov perry econ dev chair commission) workshops and how the cleared of any wrong doing bellcad chief appraiser met with the eda.gov at ctcog and threatened to take property liens against salado residents wanting to leave the crooked inc village due to requesting bell county uphold codes and laws in salado that an inc village refuse$ to provide. Suggest the fbi review District attorney [redacted] bell county recorder of deeds online purchases and immediate loan pay payments for real estate purchases. I emailed [redacted]

[redacted]@usdoj.gov and fbi the image from screen. Bell county recorder of deeds can only be viewed in the justice center building in belton. They allow iphone photos or charge $1 a print page. Please search. I have the link which i hope will not be removed. Scamalado benefactors two congressman and salient sewer etc agencies and bogus ctcog all claim plus village gov and anyone planning to cash in vouch for one another's lies and imply that due to rep carter and cornyn eda grant for sewer and waste plant that any issue to stop this corruption will be stopped due to rep carter and crook cornyns help. Eda to legitimize. Rep carter and sen cornyn are not above the law nor agencies. Will an investigation stop this insult and theft of texas and national tax dollar? Will an investigation return our property tax dollars, dissolve a inc village, hold and collect commercial buildings up to code and collect fees and close them until up to code? Will an investigation have bell county investigated? Will an investigation stop the corruption and expose the cover ups please? Thank you. [redacted]

I contacted TCEQ permitting staff and also looked at the chief clerk's database and determined the following:

10/10/2016 - this application was declared administratively complete.
11/03/2016- notice of receipt of application was published

Since that time, the application has been under technical review by TCEQ permitting staff.
A draft permit is being prepared.
Once a draft permit is finalized, further notice of the executive director's preliminary decision will be provided.
That will allow for further public comment on any draft permit.

Comment: Hope you are well. May I please request a foia regarding Txdot eminent domain funds paid to compensate commercial building owners - not sure if tenant got paid too and home to land owners for the i35 work going through Salado. This would have started as soon as Txdot began payments. I know bushs chicken was included. This is foia request . Just curious were commercial building code inspections including health Dept septic tank emptying logs with tceq waste water receipts and American disability act floorplan and parking compliance terms met and with what liscensed building staff inspection report? Thank you [redacted]

Subject: Carter: I-35 construction delays led to 'death of downtown Salado' - News - Temple Daily Telegram/ what about American disability act parking and store floor plan violations keeping people away downtown salado . No street lights no traffic lights choices kept area in the dark - add that to pillage funds meeting ::paramount - has commercial property passed building and health codes to be open and asking for market and txdot compensation

Hello. I hope you are well. What facts from the village will be presented? Before the tin can is passed around with Rep Carter, what state building and health code passes including septic tank maintenance will bell county and incorporated village of Salado present for the commercial properties? And I have added below the txdot email nov 2014 where txdot states moving commercial property for owners is too costly and that was regarding the American disability violations. And a public request can yield the bell county tax appraisal list for 122 salado commercial properties. I believe the list will let the commission narrow the count of buildings and owners especially in Main and Royal steers that drops the number and owners down from 122.

Salado is an incorporated village that originally kept all Salado inc residents property taxes by having no village city wide services. Each lot owner residential or commercial pays a monthly fee for their lot garbage collection and a monthly bill to Salado water supply. Inc village of Salado has no traffic lights nor street lights and that lack of service was factored in the low bell county property taxes. Will the incorporated village disclose this when they ask for compensation along with showing business tax returns pre highway work to recently. Salado not using city services has no comptroller. Salado is on a septic system and until developers who need a sewer came to the area. I want to say that Salado village voice articles and town hall notes would mention how salado commercial owners felt they did not have to spend money on their buildings. Will the commission be asking for leases and expense reports? I did and nothing was disclosed pre obligatory sewer bond vote. I mention the salado sewer issue because having one grants people very few people access to developing and earning property sales yet billing people on septic.

The Rep Carter and Senator Cornyn's $1.5 million department of commerce eda grant for a waste water plant only had $1 million reach salado. With online shopping and merchandize not being bought including antiques (Roundtop antique festival are online shopping vibrant) in Salado stores were quiet long before that txdot issues . Wouldn't the state and salado need to show decade plus sales history and tax paid showing how the highway issue made a difference? Why didn't Rep Carter stop the village from placing a sewer bond that has non owners, residents owning a lot under the age of 65 and only certain areas of a village of 2100 paying for obligatory sewer bond and they stay on septic? Would Rep Carter question or have bothered to answer complaints about pre nov 2014 bond obligatory sewer bond election ? I emailed his office and never got responses. The sunset commission and Rep Carter can ask the village why non owners to commercial salado property are being billed with their property taxes to give commercial owners money for a sewer. I read a headline about Sears having business issues and I imagine their stores have bathrooms in buildings in areas with sewers . And will the history of salado commercial business hours of being closed Monday's maybe Tuesday's and at 5 and open at noon sundays be added to the discussion ? And the Texas attorney general landlord ordinance for commercial property states that septic and sewer plumbing issues are an owner

responsibility and have Salado explain about why it is not according to the owners and why non owners were billed to spare them septic tank cost maintenance and other landlord obligations? And will Rep Carter ask the village on behalf of the state about the store floor plans violating the Ada and how that did not affect the salado commercial market but txdot highways did? Will rep Carter disclose to the commission his previous rollcall issue for not having declared owning http://www.rollcall.com/news/-39815-1.htmlexxonmobil stock years ago yet today wants to ask for compensation for Morris Foster former exxonmobil who owns Salado commercial property and I believe a txdot board member . http://gov.texas.gov/files/ecodev/select_committee_report.pdf

Has txdot asked the village about what they have done keep the area lit up and accessible access wise and viability wise and disclosing their store tax returns before and during txdot projects showing declines?

And Rep Carter should ask billed sewer bond victims when or if they were ever customers to these commercial property owners plus golf club members during the meeting.

And shouldn't the state first be asking who exactly the funds would be benefitting and make sure the same relief amount releases matching what Salado was issued? And due to no city services nor comptroller and no history of building codes with licensed code inspectors how the relief funding will be spent and why? If a commercial lot is closed due to violations then asking for compensation should be questioned along with why no retro commercial building and health code violations money from fines was never collected.

Please make sure the meeting transcript is published

What is so unfair and being reported is the amount of cushioning that the village and bell county are going for regarding paving the way for developers. Please put yourself in the shoes of the people being billed for a city sewer. anyone renting a home to a commercial space has rights protecting them from an owner not maintaining. The Texas attorney general office has the landlord tenant commercial & residential ordinance online. the Texas department of insurance issues money for the owner. Regarding the commercial properties the owners refused to consider a revenue bond for a city sewer and include developments. that was rejected. and I had contacted bell county - tdlr -- enforcementdlr..health dept - puc- tceq looking crossed eyed at the lack of response or the email - not our agency. And fed up I sent a txdot email

Asking about the parking.

Years ago when salado Main Street was busy ([redacted] store, before [redacted]

[redacted] took over stagecoach , mansion restaurant ..) Salado was considered a smart antique shopping village with b&b's and golf and nice restaurants. There was not a demand for a city sewer and I imagine that places paid to empty their septic tanks and provide public store access bathroom use. Yet these days - developers want to built and along with no funding explanation for guaranteed sales etc are awaiting salado under the age of 65 and own property to pay and fund the city sewer project for the next decade. And scarily alas - not one commercial property with the Ada floor plan violations and public access to their bathrooms showed a pass for a code compliant inspection before the election. The fact that rents are collected and places are for sale or for lease proof was unable to be shown. If a structure had hail damage wouldn't the owner collect money to pay for the roof. So along with proving that no city staff exists today I ask that your services intervene and revoke the sewer bond and review the government practices of salado and bell county commissioner [redacted]. what I find so over the top and insulting is that along with not shopping in Salado and being unfairly billed to improve value and pay for their property is acting as if the Ada violations get tax billed person okay. Not cool and not okay. Thanks & take care [redacted]

Ps - this email was sent to Perry's staff and Gov Abbott's staff - [redacted] and [redacted] I thought that the bond issue and no current sewer system and lack of staff would have pulled the plug on salado toiletcon.

Hi, [redacted] -

I checked with our Belton Area Office about your road-related questions. The parking situation on Main St. (which is the only road through downtown Salado that we have jurisdiction over), is not typical of what you will see on a state road, but that is because the town was built around a narrow stagecoach road, and to require the normal amount of right-of-way, parking, ADA parking, etc., would be impossible. It's kind of an "all or nothing" situation. In order to change anything, everything would have to be changed to fit the current requirements, and probably half of the buildings would have to be moved. This would be a tremendous burden on the property owners, and we have therefore 'grandfathered in' the current state of the roadway for future

planning purposes.

Any ADA parking would therefore be on the private parking areas, and out of our jurisdiction. I believe the current plan is that if the Village of Salado chooses to take over the part of FM 2268 that is Main St., we would do repairs on it and get it into good condition before turning it over to the village.

With all the work going happening on I-35, I don't believe additional work is being planned for Main St. right now, considering the additional difficulties it might cause in travel through town.

I hope that helps answer your questions. If you need more information, please let me know.

Subject: Salado Texas - certificate of occupancy / no licensed inspectors ..building commissioner / yet sewer bond vote passed and developers moved in

Interesting how no Texas building department is used by a tel 1-877 company and salado village of occupancy certificates have a salado mayor name and not a licensed inspector name and badge and the area building commissioner name on the certificate.

Seems odd that this company based in France from Holland has no BBB listing for the States and Salado is not using licensed Temple, belton, ...killeen...georgetown ...austin ..anyone in Texas and furthermore is still staffless but CAN issue permits. How will commercial and residential places get inspections? Will building veritas chopper in? not one Salado commercial property has had a licensed signed building inspector with a commissioner signature nor badge number done for the 122 commercial properties . nor has any OSSF septic tank inspection and proof of emptying ever been requested. why is village not collecting fines? Gosh, what in$entive is stopping this? and developers will not have any inspectors surveying but could use building veritas?

Salado has no city services. how can permits be issued for inspections, inspections be done for existing and future commercial property without inspectors? Thank you [redacted]

Dear US Attorneys Office6-
Re: Department of Transportation complaint references numbers 2016-0163 and CTS 540327

I hope you are well. I have scanned three letters from the Department of Transportation regarding the American Disability Act violations that the State of Texas including the Bell County Board of Health have never responded too in Salado Texas and the changes that are planned with keeping the violations unchanged. When I contacted the Department of Transportation and foolishly deleted their remove my name emails in 2014/2015 I did keep two remove my names from the department of Transportation Jack bales and I pasted one below.
I had pasted the Dept of transportation email. As of 2014 before and after the election I would email mostly bcc the @dot.gov and Oig.dot.gov and clearly I was wasting my time. Senator Cornyn was the Texas attorney general and set up the worked with the FBI and the texas rangers yet Cornyn helped Salado and nothing even on a federal level seems to be changing.

Can you please review the situation. Along with currently no building code inspections and septic tank maintenance the sewer bond that magically passed has granted Salado millions in grants from the state and rep carper and sen cornyn and ties from ExxonMobil salado commercial property owner and sold a few still have no answer as to why the ada is remaining intact nor providing ada bathroom stalls with all of the money. Pardon my ignorance for any area infrastructure wise that I missed. I appreciate your assistance.

Please note the November 3, 2014 email from txdot Jodi Wheatley who presently updates Salado on Txdot efforts and read what she said about the txdot managed main street and the planned development that required a sewer.

In 2014 and 2015 the ADA department of the Justice department sent letters telling me that the Salado ADA violations were not being investigated.
Thanks. [redacted]
ps- despite the ada being grandfathered in commercial streets, parking and stores, Salado was chosen as a purple heart city. Not quiet sure how accessible anything would be when access is the grandfathered in issue. and could you ever doubt that I had not emailed this department?

Subject: Salado Texas - certificate of occupancy / no licensed inspectors ..building commissioner / yet sewer bond vote passed and developers moved in

Interesting how no Texas building department is used by a tel 1-877 company and salado village of occupancy certificates have a salado mayor name and not a licensed inspector name and badge and the area building commissioner name on the certificate.

Seems odd that this company based in France from Holland has no BBB listing for the States and Salado is not using licensed Temple, belton, ...killeen...georgetown ...austin ..anyone in Texas and furthermore is still staffless but CAN issue permits. How will commercial and residential places

get inspections? Will building veritas chopper in? not one Salado commercial property has had a licensed signed building inspector with a commissioner signature nor badge number done for the 122 commercial properties . nor has any OSSF septic tank inspection and proof of emptying ever been requested. why is village not collecting fines? Gosh, what in$entive is stopping this? and developers will not have any inspectors surveying but could use building veritas?

Salado has no city services. how can permits be issued for inspections, inspections be done for existing and future commercial property without inspectors? Thank you [redacted]

· USCIS is refocusing its efforts on denaturalization

Muckrock 7.9.18

“September 2016 report from the Department of Homeland Security Inspector General found that hundreds of illegible immigrants had been naturalized even though more effective digitization of fingerprint records could have prevented the slips.”

· What's the delay? With billions in bank, major New Orleans roads projects still in waiting

The New Orleans Advocate 7.9.18

“Last year, the inspector general for the Department of Homeland Security issued an audit saying that FEMA had not distinguished between damage caused to roads and pipes after Katrina and the decrepit state of that infrastructure prior to the storm, meaning the city might not be eligible for much of the $2 billion it was awarded.

· Berks center for asylum seekers with history of abuses could become model for family detention

Pittsburg Post-Gazette 7.9.18

“According to a 2017 report by the Homeland Security inspector general, the federal Family Case Management Program, which allowed nearly 1,000 asylum seekers to pursue their cases outside detention with monitoring and guidance, had a perfect record for court hearings and a 99 percent appearance rate at immigration check-ins.”

First of all, I'm not suffering from loneliness. A group of racist Democrats since 2015 when I visit Washington D.C with my first born son target me because i'm too dark skin ti be seen with my son in public. They force my relatives to not speak yo me, and not attend public events with them. [redacted] made threats to all my three children to put me down so a man of power can get away with raping me. This Democrat had racist employees placed me on the 3 rd floor cage area yo shelve Encyclopedias all by myself with no assistance. Again he abuse me and force me into isolation. He also abuse my older son and had the schools force him into isolation. This racist Democrat force my daughter to abuse me verbally who [redacted] harassed my own daughter and force [redacted] into fears. They force my daughter to push me in the corner for his light skin Beyonce. Then this Democrat made several racist blacks and whites who despise my dark skin, deduct my paychecks and insult my character. They force me into loneliness on purpose. Then one day before my daughtet [redacted] birthday, this Democrat had more racist blacks removed my children because my skon is darker. They force me into loniliness on purpose. Then of October 2013 in [redacted] on my daughter's birthday , [redacted] with this Democrat force my three children and I outside of [redacted] and changed the locks, even though I made full payment. This Democrst has bern targeting, threatning my children only because I'm dark skin only.

They threathen each of my children to abuse me verbally and make me feel unwanted for this Democrat who also threathen if I don't be a hooker, they will threathen my paycheck only because my skin is dark.

I keep receiving death threats that im dark skin and to move.Every two weeks, they harassed my paycheck and deduct it on purpose.

[redacted] work at Library since Februaray 1990. They abuse me at the Library since 2013. They hatassed me to get out of Civic Center Public Library .
I have lived at [redacted] since 2002. I have never been a hooker, abuse drugs , suffer from substance abuse.

My head is full of thoughts since I received your request, you'll soon understand why.

As soon as I read your first and last name, my heart jumped! It was as if I'd found you again, several lifetimes later.

An experience like this rarely happens to me, and certainly never by chance. It's the sign of a meeting blessed by the heavens, an encounter destined to happen.

I had a vision in the seconds that followed, a vision in which I saw you weren't living the life you deserved. Immediately, I understood I should help you find happiness.

Without waiting, I did your quick draw of the Tarot. The fact of doing it while I was thinking hard about you assured me of an intense mystic link with you and with your future.

I now have important revelations to make to you, and already I've every reason to be optimistic about your future!

Drawing my first card I discovered your nature, your character and your lovable personality.

MagicianThis first card, the "Magician", shows you have a spontaneous nature. You're creative, sometimes impatient, and always searching for a life in accordance with your ambitions. However, it indicates a certain difficulty in making choices, and an innocence the runs the risk of being manipulated by people who aren't always positive.

We can protect ourselves effectively against people with bad intentions, and I will help you do this.

The teachings of this card indicate you've no lack of energy or willpower, but you don't always know how to channel them even though they are important for you. You'll soon see that it's easy to overcome this minor problem and use these inborn qualities to your advantage.

I also saw that you've a profound sense of responsibility, but at the same time can't always resist the temptation of spending money. When we aren't rich, as is your case I think, this can create some serious problems can't it, [redacted]

Having said this, I think with my help your problems with money could disappear quicker than you think. I'll tell you more later...

To summarize, you've a great sense of values, you're highly intuitive but your imagination is not sufficiently used. In spite of all these qualities it seems that too often you lack self-confidence.

You tend to put yourself down when you should love yourself as you are. Love yourself, this is what you must learn because you're really worth it. If you learned how to love yourself, do you know what would happen? You'd attract love like a magnet attracts iron. I'll come back to this point...

Now, the second card I drew: the "Hermit".

HermitFor all esotericists, the Hermit is the card of the spiritual guide. It symbolizes the union of wisdom and knowledge, initiation and magic, morality and faith.

[redacted] let me say humbly: This card represents me personally, in the relationship now created with you. It's not surprising that I picked it after feeling your call for help, and realizing that it was my duty to help you. (If you choose me, of course).

Let's continue our journey in the magic world of the Tarot with the 3rd card I drew: The "Wheel of Fortune". This is the card that interests you the most because, in my draw, it's the card that defines the outlines of your future.

Wheel of FortuneYour future seems to be under good influences!

However, I must now pause. Why? Because I must now tell you certain extremely personal things I've discovered that are vital for your future. They are so important that I've chosen to tell you face to face.

I invite you my dear [redacted] to join me now in a video I recorded for you.

After listening, you can continue your reading. However, trust me ... it's important that you listen to me before you continue.

Now, let's return and see what the Wheel of Fortune announces for you in the area of money.

This is the area that worries you more than anything else, isn't it, [redacted]

The Wheel of Fortune is a very beneficial card that announces happy events. It predicts the unexpected arrival of money, and success in business. As its name indicates, it is an extremely positive card that can lead ... to fortune.

It's above all, the card foretelling winnings on games of chance.

Winnings on games, will they be large or small? Will you win quickly or far in the future? Be careful, nothing is certain! In fact, this depends on the attention you pay to my revelations and my advice.

Let me explain: The fact that I picked this card undeniably proves you're entering a lucky period. Therefore, you'll soon receive energies favorable for winnings. You now know this, and I think it reassures you.

But to become rich on games, you need more than that: You must know how to catch the energies of luck. Then, you must know when to play, how to play and, better still, if possible, to know which numbers to play.

With me, all this is possible, [redacted] I'll soon have the occasion to show you.

The second thing revealed by this very positive card concerns your love life. If financial problems were your main worry, it seems that worries about your love life also greatly affect you. In this case, just as the case for money, I think I can say things soon will change.

The Wheel of Fortune always announces the end of a cycle, and the beginning of change and renewal. In your case, the interpretation I make is that you have been suffering from loneliness and this situation is about to change because of an unexpected event. From what I can see, you'll soon need to make a choice. Don't worry, if you authorize me I'll be at your side to advise you of the right choice.

One immediate recommendation: Recover your self-confidence, recover hope in your future because everything looks very bright for you. Look at yourself in the mirror and tell yourself that you're worth all the happiness that's soon to be knocking on your door.

[redacted] that's the summary of what the cards told me about you and your future. I should say "our" future because if you take the hand I hold out to you today, then together we'll see "miracles" happening. I'll guide you to finally live the life you deserve.

I'll lead you on the path of the happiness you've a right to, but first I need your agreement to make the Great Reading of your Horoscope.

As I told you in the recording I made for you, the next 12 months are a "turning point" for you. We must put all chances on your side to assure a brilliant success. Only a Great Reading of your Horoscope can give us the information we need.

The Great Reading of the Horoscope is my speciality. This is made by drawing 12 cards of the 22 cards of the Tarot. Its predictions are guaranteed 100%. Not only because the Tarot no longer has any secrets for me, but because I check the interpretation that I give to the cards I have picked.

How? By using these cards to make a detailed clairvoyant reading. In over 30 years of my career, I've never been wrong, [redacted] that's what earned me my worldwide reputation.

I repeat my offer to quickly complete the Great Reading of your Horoscope. It will tell you everything about your future for the next 12 months.

Click here now to receive it.

One last thing: The fact that I often receive large donations from rich people who call upon my gifts, enables me to ask you for only a small symbolic donation. However small it is, it's in accordance with the tradition of initiation that states there can be no spiritual exchange without reciprocity.

[redacted] the year announced for you looks like a turning point in your life, perhaps even the year of your rebirth. You must make choices, seize opportunities and protect yourself from traps that will inevitably show up...

I offer you my help, don't refuse it!

Don't miss this unhoped for opportunity to radically change your life!

Jarrod Ramos, 38, identified as suspect in Annapolis shooting

The suspect in the deadly shooting at a Maryland newspaper building has been identified as 38-year-old Jarrod Ramos of Laurel, Maryland, law enforcement sources tell CBS News.

Ramos is suspected of opening fire Thursday at the offices of Capital Gazette in Annapolis, Maryland, and fatally shooting five people while injuring others. He allegedly used a shotgun and was carrying smoke grenades or flash-bang grenades (bct bus driver VICTOR CARRERA) when he was apprehended, police said.

"This was a targeted attack on the Capital Gazette," Anne Arundel County acting police chief Bill Krampf said at a press conference Thursday evening. Krampf declined to name the suspect. "This person was prepared to shoot people. His intent was to cause harm."

Ramos was taken into custody at the scene and refused to cooperate with authorities. He carried no identification, sources said. Authorities resorted to using facial recognition software and comparing his face to databases of passports and driver's license photos.

He was scheduled to appear in court Friday morning on five counts of first degree murder.

Jarrod Ramos, 38, is suspected in the fatal shooting of five people at a newspaper in Annapolis, Maryland.

ANNE ARUNDEL POLICE DEPARTMENT

A Twitter account matching Ramos' name with a location of Laurel, Maryland, includes years of tweets railing against Capital Gazette and includes details of a yearslong legal dispute with the company.

According to an unreported 2015 opinion filed in the Maryland Court of Special Appeals, Ramos pleaded guilty to criminal harassment in July 2011. Five days later, an article about the case appeared in The Capital, one of Capital Gazette's publications. The story detailed accusations by a woman who said Ramos harassed her online and off for months, calling her employer and trying to get her fired. The woman eventually went to the police and Ramos pleaded guilty to a misdemeanor charge of harassment in 2011.

The Twitter account that matches Ramos' name began tweeting about Capital Gazette several months after the conviction.In July 2012, Ramos filed suit against Capital Gazette for defamation, according to the 2015 court filing. The complaint was just four paragraphs long, but Ramos filed a longer 22-page claim several months later.

In 2012, a judge dismissed the lawsuit on the basis that "there is absolutely not one piece of evidence, or an assertion by you that the statement [in the article] was false."

"I think people who are the subject of newspaper articles, whoever they may be, feel that there is a requirement that they be placed in the best light, or they have an opportunity to have the story reported to their satisfaction, or have the opportunity to have however much input they believe is appropriate," Judge Maureen M. Lamasney said when dismissing the case. "But that's simply not true. There is

nothing in those complaints that prove that anything that was published about you is, in fact, false."

_____

Editor's note: The initial version of this story published Thursday evening reported that the suspect had "damaged" the tips of his fingers in an attempt to prevent identification, citing a law enforcement official. On Friday, Anne Arundel County Police Chief Timothy Altomare said that there was a lag in identifying the suspect using fingerprints, and that facial recognition technology was used. But he said that "there was no alteration to his fingerprints." This story has been updated.

FL Dept of Law Enforcement Commish “shocked” by compromised drug cases. Shocked? Bailey?

Posted on February 6, 2014by Susan Chandler

Rogue FDLE chemist could have compromised hundreds of drug cases | FLORIDA TODAY | floridatoday.com

TALLAHASSEE — A chemist at a Pensacola crime lab could have compromised hundreds of state drug cases, Florida Department of Law Enforcement Commissioner Gerald Bailey said Saturday …

Bailey said he was shocked by the discovery and wouldn’t have suspected the employee, who isn’t cooperating with the investigation.

“The chemist has lawyered up,” Bailey said.

via Rogue FDLE chemist could have compromised hundreds of drug cases | FLORIDA TODAY | floridatoday.com.

To my knowledge, there’s no prior evidence that FDLE Commissioner Gerald Bailey can be startled or surprised, let alone shocked, by criminal behaviors undertaken by one person that can affect numerous trial outcomes.

There are multiple clusters of clouded Florida convictions that require investigating the behavior of specific public servants, and Bailey’s been a disinterest and unduly distract guy, not a dismay and due diligence guy, even though well aware that these wayward public servants aren’t restricting their waywardness to criminal investigations and prosecutions.

The following March 5, 2011 email of mine that references serially off-the-rails public servants is followed by Commissioner Bailey’s un-shocked, underwhelming response.

Attn: [redacted], Standards Editor
USA Today

Dear [redacted]

There being no point in requesting accuracy of any Gannett publication, I am writing to counter USA Today’s founder’s far-flung specious claim that he had the wool pulled over his eyes by the Bush Administration.

It remains this simple and inalterable: The claims of Iraqi 9/11 ties, WMD, yellow cake, anthrax, etc., were thoroughly incredible. There were voices of reason in our nation’s Capitol and in foreign capitols, and voices of reason in the alternative media and the private sector – all were drowned out by the mainstream media’s incessant warmongering on Bush’s behalf.

News organizations conspiratorially convinced the majority of Americans that we had the obligation not only to invade Iraq, but the obligation to ignore human rights treaties, the obligation to suspend habeas corpus, etc. These fictions cost hundreds of thousands of human lives, limbs and minds, and they cost us the right to claim we could shine the light of democracy anywhere, as it no longer shines within our borders.

Just as [redacted] can’t clean the spilt Mideast and American blood off his hands with sophist spin suspiciously printed by non-Gannett newspapers, no matter how many allies he assembles, he won’t be able to clean the blood off his hands from covering up for those responsible for decades of false convictions in his Brevard County, FL backyard. As I mentioned in my December 17th email, USA Today called a phony “all clear” on that conviction corruption mess on July 19, 1994 in “CONVICTED ON FALSE EVIDENCE? False science often sways juries, judges.”

There’s another life on the line right this moment from local peripheral corruption, [redacted], and every local conviction related to [redacted] upset convictions has been reburied by Gannett and other newspapers save [redacted], which is being stalled with the ever-available assistance of the neighboring 9th judicial circuit, which used the exact same framing techniques, with FBI involvement, resulting in [redacted] execution. [redacted] life is in danger, too; he’s been repeatedly attacked and injured – the prosecutorial theatrics deployed against [redacted] in the documentary After Innocence merely hint at what Florida public servants are capable of in the way of misconduct.

The pending media merger I also mentioned in my December 17th email has since been approved; the information stranglehold is now tighter and will foist more absurdities on the public, like USA Today’s pretense that [redacted] is addressing prosecutorial misconduct meaningfully.

The mainstream media does nothing but gather and pull wool; [redacted] is as deadly as [redacted], just somewhat less tacky.

Sincerely,

[redacted]

[redacted] (l.) funneled the narcotics into Albany, Maine and Pennsylvania, according to Attorney General Eric Schneiderman's office. [redacted] (r.) also pleaded guilty and is expected to receive the same sentence. (State Attorney Generals Office)
A drug dealer who funneled heroin, cocaine and illegal prescription medication from Brooklyn and the Bronx to Albany will be serving the next decade and a half in prison, officials said Friday. An Albany judge on Thursday sentenced [redacted], of Brooklyn, to 15 years in prison and five years post-release supervision for being the leader of a drug ring that distributed hundreds of thousands of dollars in narcotics throughout the city, the Capital Region, Maine and Pennsylvania, according to Attorney General Eric Schneiderman's office.

"We have no tolerance for dangerous drug trafficking rings like the one [redacted] was running," Schneiderman said in a statement. "As New York grapples with this devastating opioid crisis, my office will continue to aggressively prosecute those criminals who fuel the cycle of addiction."

[redacted] was sentenced after pleading guilty to felony drug sale charges on Tuesday.

His partner in crime, [redacted], also pleaded guilty and is expected to receive the same sentence, as well as 27 drug dealers under his command.

When cops closed in on [redacted] and his crew, they seized more than two pounds of bulk heroin ready to be packaged into 50,000 bags with a street value of $500,000.

Also seized during the investigation was more than a pound of bulk cocaine with an approximate street value of $50,000, a homemade heroin kilogram press, 1,067 Oxycodone pills, over $21,000 in cash, two shotguns and one handgun.

Besides leading the ring, [redacted] also dropped off the drugs to customers in his $120,000 BMW, the Attorney General's office said.

[redacted] sentencing follows the launch of Schneiderman's Suburban and Upstate Response to the Growing Epidemic Initiative, which is designed to crackdown on heroin, opioid and narcotics trafficking networks.

The SURGE Initiative targets gangs and individuals who deal heroin and opioids and commit acts of violence in suburban and upstate communities across New York State.

[redacted] is a former United States Border Patrol Agent, who was convicted of shooting an unarmed illegal alien and drug smuggler on the United States–Mexico border. He was convicted of causing serious bodily injury, assault with a deadly weapon, discharge of a firearm in relation to a crime of violence, and a civil rights violation.[1]On January 19, 2009, his sentence was commuted by President Bush and he was released on February 17, 2009.[2]

Border incident and prosecution[edit]

[redacted] was found guilty by a jury and sentenced to 11 years and one day in prison for shooting a then unknown Mexican National in the buttocks, [redacted], who was caught with over 800 lbs. of drugs, following his non-compliance near Fabens, an unincorporated town in El Paso County, Texas, while [redacted] ran away at about 1 PM on February 17, 2006. Fellow agent [redacted] was sentenced to 12 years.[3]According to U.S. attorney [redacted], after the shooting the officers disposed of their shell casings, made no further attempt to apprehend the suspect, lied to their supervisors, and filed a false investigative report.[[redacted] had been found with nearly 800 pounds of marijuana in the back of his van. Following the incident, [redacted] was granted a temporary conditional visitor's visa in exchange for giving his testimony against [redacted] and [redacted] and his partner were incarcerated January 17, 2007.[5]

Homeland Security and Justice Department involvement[edit]

Congressmen Ted Poe and John Culberson indicated that the Department of Homeland Security lied to them about the case when it indicated that it had evidence that the agents "plotted and conspired that day to go out and shoot" Mexicans. Richard Skinner, Inspector General of DHS, apologized to the congressmen for misleading them.[6]

According to writer [redacted], the prosecution was initiated at the behest of the Mexican government. Some commentators have questioned Corsi's conclusions.[7]

Reactions[edit]

[redacted] has filed a $5 million lawsuit against the U.S. government, claiming that his civil rights were violated.[1]

A petition for the pardon of the border agents received nearly 240,000 signatures.[8] On January 18, 2007, President George W. Bush agreed to review the case, and Representative Duncan Hunter

introduced a bill, titled the [redacted] Act, that would pardon the two agents, though the United States Constitution does not grant Congress the authority to issue pardons.[9]

On 6 February 2007 Representative Tom Tancredo and [redacted] relatives reported to the Associated Press that [redacted] had been beaten by fellow inmates in prison. His wife [redacted] told the AP that he had "let his guard down" and been stomped and kicked for several minutes.[10]

On April 23, 2007 the border patrol union released a no-confidence resolution against [redacted] for his failure to back up [redacted] during the case.[11] The union had also made a rebuttal responding to United States Attorney [redacted] reasons why convicting the agents was justified.[12]

The Senate Judiciary Committee examined the prosecution in July 2007 after which Senator Dianne Feinstein asked President Bush to commute the sentences.[13]

Hello,

I married [redacted] sometimes uses ([redacted]) back [redacted] believing him to be under a work visa. I found out he lied on his applications for naturalization citizenship.

He was working for [redacted] in [redacted] under a different social security number and obtained a drivers license illegally stating he was living on [redacted]
He lived with his sister [redacted] in [redacted]

He managed to buy property with a false social security number. When we married I asked him why did they change his social security number and he told me because of his change in residency application status.

He obtained his citizenship by conning a US born citizen (myself), he waited to file for divorce and accuse me with unfounded allegations while I was deployed to Afghanistan.

He refuses to show me the Childrens passports or their passport cards so I can run how many times they have been used with how many times he has asked the family courts(I suspect he uses their documents to bring in other children).

He recently married a Mexican citizen while she was on a visa and brought her child as well. I suspect he will coach her too on how to get citizenship. Under the Current administration rule of investigating and revoking fraudulent acquisition of citizenship, can this be done?

I suspect he is doing under the table accounting for Mexican organizations as well, and refused to divulge that in family court.

I am willing to testify that I was lied to, and that he lied about being legal with a work visa when we married.

My name is
[redacted]

Dear [redacted]

Peace and grace be unto you. On April 8, 2000, the Lord God Almighty commanded me to speak to the Government and People and Members of the Diplomatic Corps in Jamaica, by television, that the time would come when He would provide "untold wealth" (incalculable wealth) whereby many Countries of the world would be able to obtain financial assistance from Jamaica - through [redacted].

In 2003, the Lord used humans to help me in the establishment of one single Treasury for [redacted], pursuant to fulfilling His Word Of Promise concerning His provision of "untold wealth" - predicated by CORPORATE TITHES and FIRSTFRUITS and SPECIAL GIFTS amounting to just over One Trillion USD in value.

In 2012, the Lord instructed me to place on global public record with Chairman Donald J. Trump through a published writing that, at the time, US$63 Trillion represented less than one-tenth of the aggregate value of resources in what had become [redacted]. Unbeknownst to me, the Lord had also established other Treasuries to fund and to sustain the global purposes of His World Reordering House through The Supreme Dominion Bank Of Jesus Christ. Accordingly, He had effected the provision of more than US$600 Trillion by 2012.

In 2013, the Lord instructed me to place on global public record with Chairman Donald J. Trump that, among other things, His Treasuries for [redacted] (which had not yet reached the threshold of "untold wealth") would fund the settlement of the world's debt - making the world debt-free for one year in the course of reordering the world economic system according to God's Order and Ordinances that demand that all debts be released every seven years. New debts may be registered in the 8th year. No debt will have a lifespan any longer than 6 years in the reordered world.

This is not a political nor a religious matter. It is purely a Divine Matter. Such ordained debt release is "the Lord's release" of His people from debt every six years (Deuteronomy 15:1-2). So whereas Governments and Peoples have set it aside - the Lord is restoring it now. And He has provided the means to fund a time of new beginnings for people have been perennially saddled with debt.

So, in the reordered world, there will be no more 15-year and 20-year and 30-year mortgage. Securitized Government debts and People debts will be settled from [redacted] resources. Non-securitized debts will be canceled. Student loans and auto loans and credit card loans, etc., will either be settled or canceled through [redacted] resources. But debts owed by banks and corporations and organizations must either be settled or canceled by themselves.

Divine Intervention In The Feet For Selected Corporate Directors

In 2014, the Lord instructed me to place on global public record with Chairman Donald J. Trump through a published writing that a portion of the aggregated value of [redacted] assets (when converted to cash) will be utilized in the purchase of God-selected Banks, Insurance Companies, Satellite Companies, Broadcasting Networks, Mining Companies, Newspaper Companies, Mercantile and Stock Exchanges, Airlines, Cruise Ship Companies, Oil Companies; Hotel Companies, etc., for His world reordering purposes - more than 5, 000 Banks and Companies across the globe.

I also wrote that National Governments and local Governments have collected Taxes, but they do not bother to ensure that God's Tithes are also collected for the financial support of His business. For millennia, banks and corporations pay Caesar their taxes, but banks and corporations have not bothered to pay God His Tithes.

Well, God will not tolerate this anymore. So He will effect the collection of Corporate Tithes & Firstfruits - 11% on an equity basis - from every Government and every Bank and every Corporation and every Organization in every Country in His reordered world.

God is the Creator of everything that every Government and every Bank and every Corporation and every Organization in every Country uses in the course of conducting their businesses - from which they collect revenues by way of taxes or fees or sales or profits or combinations thereof - but they do

not bother to give God His portion.

Of course some entities patronize Him by giving a paltry donation then claim a tax deduction for it. But this sort of thing displeases God. He Ordains that Governments should collect taxes from the people and that the Priests should collect Tithes from the people for the Lord's work.

While a relatively few individual Christians and other religious people pay God His Tithes and Firstfruits at the local Temples and Sanctuaries - Governments and Banks and Corporations and Organizations do not pay Corporate Tithes.

As a matter of fact, in the 2014 writing to Chairman Donald J. Trump, I wrote that God required me to make him know that most of the vast amount of resources in the [redacted] is comprised of Special Transfers of wealth from Heaven and God's collection of some His Corporate Tithes from Governments and Banks and Corporations and Organizations across the globe.

But some had not yet realized it.

I further wrote that God says that at the time when He shall initiate financial release from the [redacted] - some entities will realize that 11% of their corporate holdings is mysteriously missing and has become part of the Corporate Tithes & Firstfruits in the [redacted]

But this is only a small precursory tip of the Corporate Tithe & Firstfruit iceberg in God's collection protocol.

The Ebenezer House website states (without updating since 2003) that when God shall intervene in the world financial system - an Agency of the Ebenezer House Administration will, exclusively and singularly and unilaterally, administer the reordering of the world banking and economic system.

The Agency is to be The Supreme Dominion Bank Of Jesus Christ. And no bank of any kind will be able to do banking business anywhere on Planet Earth without the approval and consent of The Supreme Dominion Bank Of Jesus Christ of which I am Chairman in my qualified capacity as a Banker. Thus saith the Lord God since 2003.

Now, the Lord requires me to add (here) that when He shall have intervened in the world banking and financial system - it will remain immobilized for at least six (6) International Banking days. During such period, this Man Of God will communicate and facilitate the tenets of its reordering and during the same period of at least 6 days - God will, finally, collect His Corporate Tithes & First on an EQUITY BASIS.

When He made me write about these things to Chairman Donald J. Trump - 6 and 5 and 4 years ago - God knew that the Chairman would become President Donald J. Trump of the United States of America for a reason and for a season when God shall effect the biggest transfer of wealth since the world began.

And such a time is now - when the [redacted] will likely reach the threshold of "untold wealth". For example, an online list of currently active New York Banks led me to manually count the number of banks that are, indeed, New York Banks.

Image result for Closed mouth, images

Divine Intervention Of The Mouth For Selected Political Representatives Globally

I counted 228 different banks operating in the State Of New York. Then I considered how many banks are in all of the United States Of America. Then I considered how many banks are in every Country in the whole world. Then I considered how many Corporations and Organizations. Then I considered how many National Governments and State Governments and County Government and City Governments and Township Governments in the whole world.

Then I had to make my mind reconcile with the reality that Almighty God is poised and ready to collect His Corporate Tithes & Firstfruits (11% on an equity basis) from every single one of them and, thereby, add it all to His Treasuries of [redacted] for the funding of His world reordering business when all the families of the earth shall experience not only the Spiritual but also the Financial and the Material Blessings of God as Covenanted with Abraham The Man Of God.

But there is something more - and it is more urgent - which the Lord showed me in a dream last night.

He reminded of a writing earlier this week in which I stated that the Lord tells me that He will SHAKE the whole earth, literally, when He shall toss the first fire-wrapped boulder directly from Heaven to Washington, D.C., when I am to rise up and begin to administer His reordering of the World Governmental Systems and the World Military System and the World Monetary System.

I also wrote that, during the initial global broadcast, I will make known what God requires the DIRECTORS of the approximately 3,000 Banks and Corporations and Organizations across the globe which He has selected to be purchased 100% or 59% - in which He will Supernaturally intervene for the three-step purchase and owner transfer to commence in favor of the Ebenezer House Treasuries. I am to make known what they are to do and when and where and how. He also requires me to make clear and plain what would happen if they did not comply.

Well in the dream, last night, He instructed me to place on global public record with the Chairman of Reuters that God's Supernatural intervention will not directly impact the operations of the Bank or Insurance company or Airline company or Cruise Ship company or Satellite company or Broadcasting company or Mining company or a Mercantile exchange or Stock market, etc, etc, etc - which He has selected for purchase by His Treasuries. Instead, His Supernatural intervention will directly and exclusively pertain to the BOARD OF DIRECTORS of each corporate entity.

So He showed me and told me the specific way in which He will suddenly initiate such physical intervention.

In the dream, the Lord showed me two legs of a living person. From the heals to above the ankles to about the middle of the feet were without blood - but there was blood from the middle of each foot to the tip of all five toes. I could see through the stated intervening section of each foot as if I were looking through fully transparent glass. The person to whom the legs belonged was able to sit and work and eat and talk but was unable to stand up.

Chairman David Thomson, summarily, the Lord says that all of the Directors of each bank or corporate entity that He has selected for purchase will experience the manifestation of His Supernatural Intervention in their feet and ankles and heels at the same time - but it will not be unto death and will (initially) be without pain.. I am to outline God's simple plan of procedure for expedited ownership transfer.

If any Director rebels, the rebellious one will begin to experience pain that will progressively intensify until full compliance with God's stated will is effected. All Directors will remain without the inability to walk until after ownership control transfer is finalized and confirmed.

So whereas I previously wrote that the Lord said that He will Supernaturally manifest physical intervention relevant to some selected political representatives by rendering them UNABLE TO TALK for a season - I now write that He also says that He will Supernaturally manifest physical intervention relevant to the Directors of banks and corporations selected for purchase rendering them UNABLE TO WALK for a season.

The Lord remembers how when I wrote His commands about not starting the wars in Afghanistan and in Iraq - some political representatives used their mouths to knowingly pass Resolutions to get these God-forbidden wars started. He also remembers how (in 2008) others got involved and rendered the 157-year-old Lehman Brothers legally bankrupt within only four (4) after I wrote that the Lord said that I was to purchase Lehman Brothers for cash through Citigroup.

Now that He is ready to end these two and all other wars in the world - the Lord will use me to administer His recall of all troops. He is also ready to effect the single biggest wealth transfer in the history of His world into His Treasuries in Ebenezer House, Jamaica - and He will not leave any room for neither meddling nor rebellion by anyone.

Besides, I repeatedly wrote over many years that the Lord says that whereas He knows that many people are eager to witness the evidence of His great wealth through Ebenezer House, Jamaica - the whole world will witness His great wealth sandwiched between two slices of his great power in the earth through Ebenezer House, Jamaica. The Lord bless you

At God's Command,

Major regional players have much to gain – and plenty to fear – when Trump and Putin meet

The future of the Assad regime, Palestine and the looming threat of Iran in southern Syria will top the agenda later this month, writes Raghida Dergham

Military developments are racing with political and economic ones in the region, as competing parties seek to book their – invisible – seat at the table of the historic US-Russian summit in Helsinki on July 16.

An increasingly panicked Iran has foolishly threatened to shut down the supply of oil from the Gulf region in the event its oil sales are blocked, a threat delivered by the "moderate" President Hassan Rouhani himself and then echoed and praised by Revolutionary Guard Corps commanders Qassem Soleimani and Mohammad Ali Jafari.

But unless Iran is ready for war with the United States, its thinly veiled threat of shutting down the Strait of Hormuzand threatening oil installations in the region would mean it has chosen self-destruction over compliance with US President Donald Trump’s ultimatum of “reform or suffer the consequences”.

The US Navy has since responded by vowing to protect the strategic corridor. For its part, Russia would not leverage its military alliance with Iran against the US and its allies in the region.

The European powers sympathetic to Iran would not risk their membership of Nato to appease Tehran, no matter how frustrated they are with Mr Trump’s foreign policy, which is currently shaking the foundations of the post-Second World War global order.

And China will not endorse a military confrontation with the US in the Gulf, no matter how much Iranian oil it benefits from and no matter how much the current trade war with the US escalates.

Two leaders who may feel reassured ahead of the summit are Syria’s president, Bashar Al Assad, and

Israel's prime minister, Benjamin Netanyahu, whose own desires could be met by an accord between Mr Trump and Russian President Vladimir Putin –especially if the two men agree on containing Iran and her ambitions in the region, from Tehran to Beirut via Baghdad and Damascus.

Jordan is positioning itself in the middle-ground between Moscow and Washington, to shield itself from the impact of rapid developments in Syria's south, which have triggered the displacement of hundreds of thousands of refugeesin the direction of its borders.

The kingdom, already hosting hundreds of thousands of Syrian refugees, has closed its borders and appealed to the UN to provide aid to those stranded on the Syrian side. But crucially, Amman is co-ordinating with Moscow to avoid paying the price for the strategic shifts taking place in southern Syria, whether in the form of militants infiltrating its territory or economic and political instability caused by further refugee arrivals.

Here, the UN and some European capitals are playing a dangerous game.

They claim the humanitarian imperative requires Syria's neighbours to host and sustain refugees until security conditions allow them to return. However, the UN and those European powers know that it would be possible to establish safe zones for refugees inside Syria's territory, if they had the courage to insist on and impose them.

And they are aware that countries like Jordan and Lebanon are paying a heavy price for having to host numbers equivalent to a high proportion of their populations.

Meanwhile the Assad regime has decided not to allow the return of "poor and unskilled" Syrians, especially those who oppose the regime – according to a Syrian source who visited Damascus recently. Rather, the Assad regime welcomes the return of wealthy, skilled Syrians alone.

In simple terms, what is happening in Syria's south is not the result of some natural disaster, but a deliberate policy agreed among Russia, the US, Israel, and the Syrian regime. It's time therefore for some UNHCR officials to rein in their hypocrisy and voluntary complacency.

The name of the game in eastern Deraa is the Nasib border crossing with Jordan, the opening of which has become an imperative for several parties. And to the west of that region, which is adjacent to the Israeli occupied Golan Heights, an accord is emerging among Russia, Israel, the US and Jordan to keep Iranian forces and their allies 60 kilometres or more from the border.

According to international sources, Russia will not stop military operations in Deraa. The Nasib border crossing will be opened in some way, they say, after the offensive in eastern Deraa is concluded. And according to press reports, Russia has promised Jordan to rein in Iranian-backed militias and prevent them from threatening the kingdom's borders.

The question now is who will secure the border and the crossing.

According to UN sources, Russia has offered to protect the crossing by deploying Russian military police infused with some regime elements in a way that would allow the Syrian government to project an image of sovereignty, but without fully deploying there.

In southwestern Syria, the picture is more complicated and has to do with the guarantees Russia and the regime shall provide to Israel at a later stage.

The Helsinki summit will not delve into such details, but will probably tackle the broader issue involving Israel, Iran and the Syrian regime. According to sources and reports, Mr Al Assad will figure highly at the meeting.

Firstly, his survival in power is being touted by Mr Putin as a necessary step to pull the regime away

from Iran. Secondly, Mr Netanyahu has reached a reconciliation with Mr Al Assad. Thirdly, in practical terms, the Nasib crossing issue means keeping Iran away from the border with Israel. And fourthly, the Nasib crossing is a veiled way to talk about the elephant in the room, namely the nature of Russia's .intentions and stances regarding the Iranian question

Iran's leaders have anticipated this by delivering their threat to the Strait of Hormuz, in response to the .US bid to shut down their oil exports

But opinions are divided about using oil as a weapon. Some believe Mr Trump's demands for countries to stop purchasing Iranian oil as of November 4, or face sanctions to be tantamount of a declaration of .an economic war on Iran

Others believe Iran's insistence on military intervention and meddling in the Arab countries was itself a .declaration of war that now justifies such punitive measures

What to do with Iran? That will be a question Mr Trump feels he knows the answer to, while Mr Putin .favour prudence over high-impact action

One other issue at the summit could be the elusive "deal of the century" on Israel-Palestine. Some leaks suggest it will be based on the two-state solution, however with the Palestinian state comprised of Gaza and parts of the West Bank and with its capital in the Jerusalem suburb of Abu Dis, instead of .east Jerusalem

In truth, the Abu Dis offer was first mentioned when details of the Oslo Accords first emerged, a deal of .which the current Palestinian President Mahmoud Abbas was a key facilitator

إيران والأسد واسرئيل في قمة هلسنكي

تتسابق التطورات الميدانية والملفات السياسية والأمنية والإقتصادية ويسعى أكثر من طرف إلى التموضع غيابياً على طاولة القمة الأميركية - الروسية في هلسنكي في ١٦ تموز (يوليو) الجاري. إيران القلقة تكاد "تضع قدمها في فمها"، كما يقول المثل، وهي تهدد على لسان الرئيس المعتدل حسن روحاني وقادة "الحرس الثوري" المتشدد، قاسم سليماني ومحمد علي جعفري، بأنها ستمنع صادرات نفط المنطقة برمتها في حال منع مبيعات النفط الإيراني. هذا إذا لم تكن حقاً جديّة في إستدعاء حرباً مباشرة مع الول ايات المتحدة الأميركية. اما إذا كانت الجمهورية الإسلامية الإيرانية جاهزة لفتح جبهة مضيق هرمز وتهديد المنشآت النفطية في المنطقة، عندئذ تكون تبنّت السيناريو الكارثي وقررت ان الإنتحار أفضل من الإذعان لسياسات الإصلاح أو الاركاع التي يتبناها الرئيس الأميركي دونالد ترامب. فالبحرية الأميركية ردّت بتعهدها حماية مضيق الهرمز. وروسيا لن تتطوّع التحالف عسكرياً مع الجمهورية الإسلامية الإيرانية ضد الولايات المتحدة الأميركية وحلفائها في المنطقة. والدول الأوروبية المتعاطفة مع إيران لن تجازف بعضويتها في حلف شمال الأطلسي (ناتو) إرضاءً لطهران مهما تذ مرت وامتعضت من "ترامبية" السياسة الخارجية الأميركية التي تهز اسس النظام العالمي المعتمد منذ الحرب العالمية الثانية. والصين لن تتواجه عسكرياً مع أميركا في مضيق الهرمز مهما استفادت من نفط إيران أو مهما احتدت المعركة التجارية بينها وبين الولايات المتحدة، كما يجري الآن. الطرفان اللذان قد يكونا الأكثر إرتياحاً هما الرئيس السوري بشار الأسد ورئيس الوزراء الإسرائيلي بنيامين نتانياهو، وبالتالي ان تموضعهما في قمة هلسنكي لا يشبه التموضع الإيراني أو الأوروبي أو الصين. الدول الخليجية العربية أقل توتراً من هذا الثلاثي، لكنها ليست بقدر الإسترخ اء نفسه كما الأسد ونتانياهو. فهذا الثنائي سيكون موضع تفاهمات بين الرئيسين دونالد ترامب وفلاديمير بوتين - تفاهمات تحميهما وتلبّيهما سيما إذا ما اتفق ترامب وبوتين على احتواء إيران في المنطقة ومنعها من تنفيذ مشروعها الممتد من طهران إلى بيروت عبر العراق وسورية.

الأردن أخذ إلى التموضع لدى موسكو وواشنطن خوفاً من انعكاسات التطورات الميدانية في الجنوب السوري بتدفق أفواج جديدة من لاجئين سوريين يصل عددها إلى حوالي ٣٠٠ ألفاً إلى الأراضي الأردنية. الأردن اقفل حدوده أمام المزيد من النازحين السوريين الذين يبلغ عددهم حالياً في الأردن ٦٠٠ ألفاً وهو يطالب الأمم المتحدة ان تمدّ العون للنازحين داخل الأراضي السورية. كما يسعى الأردن للتنسيق مع روسيا كي لا يدفع هو ثمن قراراتها الإستراتيجية في الجنوب السوري. الأردن محق في الموقفين سيما وانه يخشى تسلل ع❌ ❌اصر مسلحة إلى داخله مما يسبب إهتزازاً أمنياً، إلى جانب الإهتزاز

وتأهيلهم إلى حين تأمين العودة الأمنية. فالأمم المتحدة وهؤلاء الأوروبيين يعرفون جيداً ان في امكان الأمم المتحدة ان تصر على مناطق آمنة للنازحين داخل الأراضي السورية، لو امتلكت الجرأة ولو أصبحت أقل كسلاً. يعرفون ان الدول المجاورة، مثل الأردن ولبنان، تدفع كلفة غالية لإعداد اللاجئين إليها حيث بلغت النسبة في لبنان ربع عدد سكانه. يدركون تماماً ان نظام بشار ا لأسد اتخذ قراراً بعدم السماح بعودة الفقراء وغير المثقفين سيما من السوريين الذين ليسوا في صفوفه. وبحسب زائر سوري إلى دمشق مؤخراً، ان نظام الأسد يرحّب بعودة السوريين الأثرياء وذوي الكفاءات العلمية وهو يريد للآخرين ان يبقوا في لبنان والأردن. فكفى جهلاً ونفاقاً سيما من بعض ممثلي مفوضية اللاجئين التابعة للأمم المتحدة. فما يحدث في الجنوب السوري ليس نتيجة كارثة بيئية وانما هو تنفيذاً لسياسات مدروسة وتفاهمات بين روسيا والولايات المتحدة وإسرائيل وسورية بشار الأسد.

عنوان القصة الكبرى هو شرق درعا في معبر النصيب الذي هناك قرار حازم بإعادة فتحه، وغرب معبر النصيب المتاخم للجولان حيث تقع التفاهمات المبدأية الروسية - الإسرائيلية - الأميركية - الأردنية وأساسها ابتعاد أو ابعاد الإيرانيين وحلفائهم والمليشيات التابعة لهم عن الحدود مع اسرائيل إلى عمق ٦٠ كلم وربما ٨٠ كلم.

تقول المصادر الدولية ان روسيا لن تتوقف عن العمليات العسكرية في درعا، وان معبر النصيب سيتم فتحه بأي شكل من الأشكال، وان الجزء الشرقي من الجنوب السوري سينتهي والافضل ان يكون الحسم سريعاً.

الأنباء في الإعلام تقول ان روسيا تعهّدت للأردن بلجم المليشيات التابعة "للحرس الثوري" وضمان عدم تسلكها عبر الحدود الأردنية.

السؤال المطروح هو مَن يؤمّن الحدود ومَن يؤمِّن معبر النصيب. والجواب، بحسب المصادر الأممية ان روسيا تقدمت بعرض تأمين المعبر عسكرياً military police انما مع تلقيح ذلك بمظاهر ورموز سيادة النظام دون السماح بدخول جيوش نظامية سورية لتأمين معبر النصيب. هذا في شرقه. اما غرب النصيب فانه ينطوي على بعد مختلف لأنه يتعلق بالضمانات التي تقدمها روسيا والنظام في دمشق إلى اسرائيل، بعد الإنتهاء من شرق النصيب.

قمة ترامب - بوتين لن تدخل في تفاصيل معبر النصيب لكنها، على الأرجح، ستمرّ على المسألة بسبب أبعادها الإسرائيلية والإيرانية و"الأسدية". وبحسب مختلف المصادر والمؤشرات، يبدو ان الرئيس بشار الأسد سيكون غائباً حاضراً في قمة هلسنكي، أولاً، لأن بقاءه في السلطة مطروح بشدة من قِبَل بوتين كوسيلة ضرورية لسحبه من الاحضان الإيرانية. وثانياً، لأن بنيامين نتانياهو يرتاح إلى بشار الأسد ولا يريد لدونالد ترامب ان يصرّ على بقائه مرحلياً ومؤقتاً فقط في السلطة. وثالثاً، لأن قصة معبر النصيب تعني عمل يا إما إبعاد أو استبعاد إيران عن الحدود مع اسرائيل، طوعاً أو فرضاً. ورابعاً، لأن معبر النصيب مفتاح من مفاتيح الحديث عن "الفيل في الغرفة"، اي حقيقة النوايا والمواقف الروسية من الجمهورية الإسلامية الإيرانية.

القيادة الإيرانية وسّعت بيكار موقعها في القمة الأميركية - الروسية وذلك بإضافة تهديدات مضيق الهرمز إلى ملفي الاتفاق النووي الإيراني ومشاريع إيران التوسعية خارج حدودها بالذات في سورية والعراق ولبنان وكذلك في اليمن. فلقد نُقِل عن لسان الرئيس روحاني المحسوب على الاصلاحيين انه هدد لدى استقباله الجالية الإيرانية في سويسرا بمنع عبور شحنات النفط من الدول المجاورة إذا ما نفذت واشنطن خططها ضد تصدير النفط الإيراني وذلك من خلال اجبار جميع الدول على وقف شراء النفط الإيراني. تلى ذلك إشادة ق ائد فيلق القدس في "الحرس الثوري" الإيراني، قاسم سليماني، بروحاني في رسالة قال فيها "أقبّل يديك على التهديد هذا". ثم أعلن قائد الحرس الثوري، محمد على الجعفري، ان قواته مستعدة لإقفال مضيق هرمز وقال "نأمل ان تُنفَذ هذه الخطة التي تحدث عنها رئيسنا إذا اقتضت الضرورة" وعندئذ "سنجعل العدو يدرك أنه اما ان يستخدم الجميع مضيق هرمز، أو لا أحد".

الآراء منقسمة ازاء التطور النفطي إذ هناك من يعتبر مطالبة الرئيس دونالد ترامب للدول الإمتناع عن شراء النفط الإيراني اعتباراً من ٤ شهر تشرين الثاني (نوفمبر) والا ستفرض عليها عقوبات مالية اجراء بمثابة اعلان حرب اقتصادية على إيران. وهناك من يرى ان اصرار الجمهورية الإسلامية الإيرانية على تصدير ثورتها والتدخل عسكرياً في الدول العربية انما هو اعلان حرب وخوض حروب أهلية في هذه الدول، فاستحقت الإجراءات العقابية.

ما العمل بإيران؟ هوذا السؤال الذي سيتناوله دونالد ترامب من منطلق "أنا أعرف الجواب" وسيعالجه فلاديمير بوتين من منطلق "مهلاً" ولربما من منظور الاختبار وشراء الوقت بدلاً من الحسم والإجراءات.

لعل المسألة الاخرى التي ستكون مطروحة بقوة في القمة هي "صفقة القَرن" السرية التي يُسرّب انها تقوم على مبدأ "حل الدولتين" انما انطلاقاً من غزة كدولة فلسطين مع انضمام بعض أراضي الضفة الغربية إليها على ان تكون عاصمتها "أبو ديس" في ضواحي القدس وليس في القدس الشرقية. ولقد برز اسم "أبو ديس" كعاصمة لفلسطين عند الكشف عن اتفاقية "أوسلو" السرية التي جمعت المسؤولين الفلسطينيين والإسرائيليين للمرة الأولى في عاصمة النروج وكان الرئيس الحالي محمود عباس (أبو مازن) طرفاً أساسي اً في ابرامها.

Major regional players have much to gain – and plenty to fear – when Trump and Putin meet

The future of the Assad regime, Palestine and the looming threat of Iran in southern Syria will top the agenda later this month, writes Raghida Dergham

Military developments are racing with political and economic ones in the region, as competing parties seek to book their – invisible – seat at the table of the historic US-Russian summit in Helsinki on July 16.

An increasingly panicked Iran has foolishly threatened to shut down the supply of oil from the Gulf region in the event its oil sales are blocked, a threat delivered by the "moderate" President Hassan Rouhani himself and then echoed and praised by Revolutionary Guard Corps commanders Qassem Soleimani and Mohammad Ali Jafari.

But unless Iran is ready for war with the United States, its thinly veiled threat of shutting down the Strait of Hormuzand threatening oil installations in the region would mean it has chosen self-destruction over compliance with US President Donald Trump’s ultimatum of “reform or suffer the consequences”.

The US Navy has since responded by vowing to protect the strategic corridor. For its part, Russia would not leverage its military alliance with Iran against the US and its allies in the region.

The European powers sympathetic to Iran would not risk their membership of Nato to appease Tehran, no matter how frustrated they are with Mr Trump’s foreign policy, which is currently shaking the foundations of the post-Second World War global order.

And China will not endorse a military confrontation with the US in the Gulf, no matter how much Iranian oil it benefits from and no matter how much the current trade war with the US escalates.

Two leaders who may feel reassured ahead of the summit are Syria’s president, Bashar Al Assad, and

Israel's prime minister, Benjamin Netanyahu, whose own desires could be met by an accord between Mr Trump and Russian President Vladimir Putin –especially if the two men agree on containing Iran and her ambitions in the region, from Tehran to Beirut via Baghdad and Damascus.

Jordan is positioning itself in the middle-ground between Moscow and Washington, to shield itself from the impact of rapid developments in Syria's south, which have triggered the displacement of hundreds of thousands of refugeesin the direction of its borders.

The kingdom, already hosting hundreds of thousands of Syrian refugees, has closed its borders and appealed to the UN to provide aid to those stranded on the Syrian side. But crucially, Amman is co-ordinating with Moscow to avoid paying the price for the strategic shifts taking place in southern Syria, whether in the form of militants infiltrating its territory or economic and political instability caused by further refugee arrivals.

Here, the UN and some European capitals are playing a dangerous game.

They claim the humanitarian imperative requires Syria's neighbours to host and sustain refugees until security conditions allow them to return. However, the UN and those European powers know that it would be possible to establish safe zones for refugees inside Syria's territory, if they had the courage to insist on and impose them.

And they are aware that countries like Jordan and Lebanon are paying a heavy price for having to host numbers equivalent to a high proportion of their populations.

Meanwhile the Assad regime has decided not to allow the return of "poor and unskilled" Syrians, especially those who oppose the regime – according to a Syrian source who visited Damascus recently. Rather, the Assad regime welcomes the return of wealthy, skilled Syrians alone.

In simple terms, what is happening in Syria's south is not the result of some natural disaster, but a deliberate policy agreed among Russia, the US, Israel, and the Syrian regime. It's time therefore for some UNHCR officials to rein in their hypocrisy and voluntary complacency.

The name of the game in eastern Deraa is the Nasib border crossing with Jordan, the opening of which has become an imperative for several parties. And to the west of that region, which is adjacent to the Israeli occupied Golan Heights, an accord is emerging among Russia, Israel, the US and Jordan to keep Iranian forces and their allies 60 kilometres or more from the border.

According to international sources, Russia will not stop military operations in Deraa. The Nasib border crossing will be opened in some way, they say, after the offensive in eastern Deraa is concluded. And according to press reports, Russia has promised Jordan to rein in Iranian-backed militias and prevent them from threatening the kingdom's borders.

The question now is who will secure the border and the crossing.

According to UN sources, Russia has offered to protect the crossing by deploying Russian military police infused with some regime elements in a way that would allow the Syrian government to project an image of sovereignty, but without fully deploying there.

In southwestern Syria, the picture is more complicated and has to do with the guarantees Russia and the regime shall provide to Israel at a later stage.

The Helsinki summit will not delve into such details, but will probably tackle the broader issue involving Israel, Iran and the Syrian regime. According to sources and reports, Mr Al Assad will figure highly at the meeting.

Firstly, his survival in power is being touted by Mr Putin as a necessary step to pull the regime away

from Iran. Secondly, Mr Netanyahu has reached a reconciliation with Mr Al Assad. Thirdly, in practical terms, the Nasib crossing issue means keeping Iran away from the border with Israel. And fourthly, the Nasib crossing is a veiled way to talk about the elephant in the room, namely the nature of Russia's .intentions and stances regarding the Iranian question

Iran's leaders have anticipated this by delivering their threat to the Strait of Hormuz, in response to the .US bid to shut down their oil exports

But opinions are divided about using oil as a weapon. Some believe Mr Trump's demands for countries to stop purchasing Iranian oil as of November 4, or face sanctions to be tantamount of a declaration of .an economic war on Iran

Others believe Iran's insistence on military intervention and meddling in the Arab countries was itself a .declaration of war that now justifies such punitive measures

What to do with Iran? That will be a question Mr Trump feels he knows the answer to, while Mr Putin .favour prudence over high-impact action

One other issue at the summit could be the elusive "deal of the century" on Israel-Palestine. Some leaks suggest it will be based on the two-state solution, however with the Palestinian state comprised of Gaza and parts of the West Bank and with its capital in the Jerusalem suburb of Abu Dis, instead of .east Jerusalem

In truth, the Abu Dis offer was first mentioned when details of the Oslo Accords first emerged, a deal of .which the current Palestinian President Mahmoud Abbas was a key facilitator

I sent this letter to [redacted] and I am going to send it to some other people. I have pictures of Wikipedia, Blade of the Northern lights for about 4 or 5 years. I think they delete as they go the real bad stuff but the stuff I got has them talking about Nominating heavy metal bands for AfD, forcing a football coach [redacted] into signing [redacted], people put on a deletion list,requests for ritual humiliation,a lecture from a Columbia University Prof. about a post truth panel, Policy for non-free press, discussing the national monuments and byers already lined up, creating, updating and improving the history of Jewish women, I think though that Anonymous might be part of all this. They hate our government as much as the Democrats and seen to be teaching people how to steal homes and property on the open source sites. The silent Holocaust is being perpetrated by 2 different groups. I'm pretty sure anyway. Both groups are targeting the other and one of the groups, I believe Christians are targeting heavy metal band members, I found a bunch of connections of them dying in the last couple years, or I just can't find any info on them at all, also drug users, alcoholics, etc.. The other group are using these same people to do the harassment of there targets, Conservatives and Anarchists, getting them to do drugs just so the other group targets them, then promising them something in return but then they become a target. It's a F-ing Purge. What the hell is going on. Innocent people, including children are dying. I just don't get it. Our own Government is involved in this, and they are using the church of scientology to do a lot of it. Watch the interview with Tom Cruise, he talks about them being the only ones who know how to deal with the mentally ill, drug addiction and the rehabilitation of criminal, and that they are helping the authorities in these areas. Tom talks like everyone knows what is going on and they need to get with the program or get out of the way. They are driving people insane to the point they are committing suicide, including our vets. It's horrifying. I am so sick to my stomach. What the hell has happened to our humanity. Did it go away with the invention of Global Warming? Power hungry idiots are doing this so they can obtain more power, that's all it is. The world has gone mad. I just don't know what to do with all this. I have so much on this. I just don't know.

Dear [redacted]

I am writing to you because something terrible is going on in this Country and I believe that talk radio might be the only way to wake up the people of the united States. At about the same time that Trump announced his candidacy to run for President My life got really wierd then it got turned upside down by a bunch of foreigners, extreme left wing activist groups and the authorities to some degree. I had a home that I had paid 20% down on and my boyfriend a Filipino man who owned his own lab were in a really good relationship.

Then all these illegal immigrants from both the Filipines and Mexico started showing up hanging out at [redacted] lab. Usually the Filipino's were introduced to [redacted] by someone he knew as someone from his home town and he would bend over backwards to be nice including letting people live in his home. So when these people started to show up we started having problems and from then on it was an endless array of strangers coming and going and group harassment from total strangers that I had never met, following me every were I went. One of these Filipino's was a young guy from Saudi and had repeatedly asked me if I believed in second chances. Just recently I learned about Scientology and that this is one of there programs. During this time I was talking to one of the women staying with us about the harassment and she was "all brown" she said, and told me that if a bunch of women put there minds together they can accomplish anything. Around this same time summer of 2015, there was a huge statue at burning man of a women in the power poze. The Actress that has been organizing a lot of the me-too movement was at that burning man. They were also having a lot of activity in what they call deep playa, this is on the outskirts of Burning Man. [redacted] and I were not invited to any of this.

So in May of 2016 [redacted] had been living with me for a little over a year and he moved out. That was when the real aggressive harassment started. People started to drive by my house every time I would go out front. Like they new exactly what I was doing. There would be multiple cars no matter what time it was, even in the middle of the night. They would slow down and flip me off, act like they were shooting at me, take pictures of my house. There was also some wierd things that happened across the street from me. There was a Filipino women that owned it and rented a room to one of our friends. She put it on the market and told him he had some time ti find another place. So at some point I was told they moved her to California into a retirement facility. This was that summer. Her son called our friend and threatened his life because he hadn't moved out yet. So after he moved out,I was out in front of my house and he and his wife were there and it looked like they were just getting a few things. Then this large SUV pulled up with 2 Filipino couples and they went inside. When they came out 3 of them were carrying a large contractors bag and dragging it on the ground. The lady that was not carrying it started to get stressed because they were dragging it on the ground. At first I thought maybe it was my friend because I hadn't seen him in a while, now I am convinced it was the owner of the house. Also I had this young lady that was a friend of my sons stay at my house for a few weeks. during that time she brought what later I found out was an MS13 member to hang out there. She kept referring to my house as "my house" whenever she was talking to someone. She is someone that has been in the foster system for a long time and has a hard time getting documentation on her legal status. The people that moved in across the street were 2 couples, I believe both Spanish. When I look up the property the name of the person who sold it does not seem to be Filipino.

I eventually sold my home due to this harassment and the fact that I thought they were going to steal it. Later after I sold my house I would try to look up the info on my house and I would get stuff like I had bought it from myself or that my ex-husband had lived there. eventually I started to go directly to the County recorders office and found that just before all this started there was a lien put on my house for the water bill or something and that just after this Wells Fargo recorded a new Deed of Trust. The original holder was the Mortgage Electronic Filing System, but my loan never changed and I was never notified that the Deed holder changed. [redacted] home is another one that is strange. He got a divorce in 2013 and his wife has been living in this home now for about 5 years Mortgage free, in a re-modification cycle, or so I am told. I have set in on calls to and from Gilde Mortgage while they talked to [redacted] about

trying to refinance it. She is now trying to get him to let her boyfriend swap names on the original contract. This program ended more than a year ago. They had sold 10 feet of this property to the City in 2012 but the City didn't file anything with Washoe County till March of 2015, that is when she asked [redacted] to sign paperwork refinancing the house with her but she would keep it and he said no not unless we sale it. Back in August of 2017 they put up a Notice of sale but never sod it. Like I said she is still living in this home. There are 2 other Property's that I have come across that have strange circumstances. One was this lady that stole my 37 ft RV. She took it for a test drive and then gave me the run around for about a week then changed her phone number. At one point I found her but the police would not help me recover it. I went to her address when she changed her number and of course the house was empty, so I went to one of the neighbors and asked them if they knew anything about her. They said that they had been served a Foreclosure notice by the police and were evicted. They don't do foreclosures in Nevada, they do a notice of sale and neither one of these things have been filed with Washoe Co. The most recent thing filed on this property was [redacted] the owner giving someone power of Attorney. The other house that I came across was left to this Filipino women in a trust along with a lot of other things. She has tried to get information from the Attorneys about what she was left and they tell her she has to pay them $3000.00 to talk to them. The house did not have a lot owed, Somewhere just over $100K and she was having heart problems. During this time she went to a Real-estate Co and wanted to refinance and get some equity out of it. They talked her into renting it out and told her she needed to remodel the kitchen. Which it did not need, I saw pictures of it and for renting it out?? While she was having open heart surgery and just after this procedure they were sending Uber to pick her up to sign documents. They Bought this house from her and took out the remodel and the Uber and gave her a check for $15K. They then turned around 5 months later and sold the house for almost $200K more than they had bought it from her. I believe this is just the tip of the iceberg. I have talked to other people who tell me things like My Uncle is trying to steal my Mom's house, or they get something saying there is a lien on it and it isn't filed with the County. Just a lot of very strange things going on with the realestate in Reno.

While I was still in my house I started to get on my computer that everyone else had been using and I started to find some interesting things. One was a file named "F U [redacted] but it was spelled out. So I started to look at what kinds of software had been down loaded what files were on it, etc. etc. I was not able to access some of the files on my computer. I went to settings and changed a few things to make it safer and used it for about 10 minutes. That is when a message came on and told me the administrator had denied me access to my computer. Then the front of the comuter had a new Icon for the administrator. I couldn't access this computer for about a month then I tried and was able to get on it. During the last 3 years I have documented a lot of what I have found, either by writing it down, taking pictures or taking screen shot. The screen shots they have made it hard to access because they would mess up my phone so bad that I couldn't use it. So I would go out and buy another phone. But I have printed out some of this and still have it and I have written down some of it. There are some things that have happened that I even question, even though I know they happened.

I will tell you a couple more storys just so you know where I am coming from in all this. After I sold my house I put my RV at a park but was staying at [redacted] off and on. They were using license plates to get in my head, like why me, Lyzzz, nxtwk2, no1nos, spdbmp, the one that really got to me was the nextweek2 one. I had just gotten into a fight with [redacted] and was heading to the RV park when I saw it and all that went through my head was and the week after etc. etc. So when I got back to the RV being very upset and stupid I took some pills. Someone had left there anti-depresnts laying around. There was 19 tablets and I took 9 then realized that that is exactly what they wanted V and texted [redacted] who called 911 and my sister. The Ambulance came and took me willingly to the hospital. So at that time I did not know nothing about a legal 2000. This is the law that allows the hospital to hold you for 72 hours for evaluation. I wasn't even that bad but they did a blood test and a urin test. I admit I was doing some drugs at the time, probably why I was being stupid. I was ready to go home after sleeping off the drugs but they said I needed to see a psychiatrist first, so they transferred me to what I call the hoolding facility of Mt Mary's Hospital. They do not have a real Mental Health part of the Hospital, and from what I was told they only hired one outside professional to do there evaluations. Now I asked several times for a copy of the law that was allowing them to hold me but was denied every time. I was told that they could keep me there as long as they wanted due to the suicide attempt. I asked to see a patient

advocate and he told me the same thing, When I was transferred to this department they immediately wanted to start giving me drugs and shots. I allowed them to give me the tetanus shot, but did not allow them to give me blood thinning shots. This shot was given because these people are held there without any ability to move around very much. They also wanted to give me Adavan, which is a anti-depressant. The only thing making me depressed at this time was being there against my will just before Christmas. Now when I was eventually release I learned all about the legal 2000. I was being illegally held. I will explain more after the story. So on about day 5 when I saw the Dr that I seen almost every day for about 5 minutes she said she thought that I would see the psychiatrist in the next day or so, and that she would talk to her because she thought that I was fine. I ended up taking the Adavan twice while I was there so I would not flip out on these people. The head nurse told me that she wasn't even sure if the part time psychiatrist would even come in in the next day or so," because after all it was the holidays and she has family". I had to calm down after that one. I signed paperwork on the morning of the 6th day to give my sister and her daughter access to my medical records. That night at midnight which is when I was checked into the hospital so exactly 2 72 hours periods I was transferred to NNAMHS facility by ambulance. When I got there (I had $3000 in cash in my purse when I went in) the guy checking me in wanted me to sign a blank form saying what was in my possession. I told him that once he filled it out I would sign it. On my paperwork he said I refused to sign it at all. At this point my sister who has worked in drug and alcohol for years started to email someone in charge of the program and was corresponding with her about the program being pretty messed up and that there were people that needed that bed more than me. I saw the Psychiatrist that day and the first thing he asked, or said was you don't have insurance correct? I told him I had qualified for Medicaid at St Mary's and he said something like he didn't think I qualified due to my assets. WTF. Then he proceeded to tell me I had a temper and that I should quit doing drugs. I don't have any idea how he new I had a temper I kept it in check pretty good the whole time I was there, but I told him that I agreed about the drugs and that I had had a temper my whole 50 years of life and that that did not make me mentally ill. The next day I finally had a hearing, supposedly by outside professionals. I had asked if my Sister and my Mom could come talk to them and they let them. My Sister went armed with the law and asked if she was interpreting it correctly and that they should have treated me then released me and they said yes. Then I went in and I really don't think the Spanish lady wanted to let me go. But they decided to release me. This was early afternoon on my 8th day and it took them till late afternoon the next day to final let me go, just one day before Christmas.

While I was still in my house I had bought some devices from a spy shop in town (more about the spy shop/wierd after story) that reads radio waves and detects camera lenses. I had used it at the house with my Wi-Fi turned off and most of my things moved out. I picked up signals in all the vents going up through the house and on some door hinges. It also picked up signals in my car heater and the tire rim area of my hauling trailer. So it was working, I believe. So I took it in our bedroom and turned it on. I only had to turn it barely and it went off all the way to the end. It normally does not do this. you have to turn it all the way up to pick up the strongest signals then as you turn it down you pin point the less strong signals. I could not do that it just went crazy in that room. I confronted [redacted] with this and of course he said the spy shop was probably a scam, and maybe it is, but about a month after this our landlord had an electrician come in and literally strip all the electrical wiring out of the double wide home, including cutting big holes all over the outside of the house. I have pictures of this. There were wires hanging out of all the sockets and light fixtures, someone got us one outlet working directly from the circuit box and we used that for the entire house for 8 months then he evicted us. and gave us bad reference so we could not find a place to live. Now one other gadget I purchased at the spy shop was a recorder flash drive. I hadn't really set it up and thought I had lost it, and walla just about a month ago I put it in my computer and there was a bunch of recordings, mostly of me, at first I thought it was someone else's then it dawned on me it was mine. Hers the wierd part. There are about 6 recording at the spy shop so the owner must have been recording and sold me that one with his recordings on it. Another thing that is wierd is that if I was carrying it around with me why isn't [redacted] ever on these recordings. I was after all living with him. I ended up listening to the Spy shop recordings and there are a couple things I found interesting. One was the first recording where a few people came in and its like as they were saying who they worked for someone was crumpling paper by the recorder, then he proceeds to tell him about a device that would be good in his line of work that makes someone sick when pointed at them for a few minutes, and some listening device. Another of the recordings his

grandson is there and I hear police and the crumpling sound again. I took the recording to the guy at the Spy Shop who had told me they had owned the place for years and his wife said they had only owned it for a few years, so right about when all this started. He wasn't to interested in listening or telling me he was the one recording but did tell me he could tape us without me knowing and that it was legal. No it is not.

I am going to send this to you now. If you would like more info on why I came to the conclusion that this is being done by Radical Leftist, illegal immigrants, and criminals I can send you more info. But also if you want to do some research watch the interview of Tom Cruze about Scientology, it is about 9 minutes long and just think about what he is saying. Also there is a video "The secret holocaust" Utube video +4jJebz5dsA8, [redacted] has some info out there, ANONYMOUS also has some good video links, stop gang stalking. One more thing the NA organization has as one of there World Organizations Tehran, Iran. I noticed this and grabbed some of there fliers and when I went and looked the next time they had pulled all these fliers out and replaced then with ones that did not have them listed. Basically I thing the Radical left is helping the Muslims get into this Country through a very sinister harassment of citizens and swapping them out with the people they mess up. Isolate someone enough and no one will notice that there is now someone else in there place, business, home, etc. etc.

I have been harassed for so long now and they just are not stopping. I am scared and tired. And I keep finding out more every day. How I found that was I put out an add in the local paper asking if anyone had been harassed by a group of people. This guy responded from jail and told me his story. He got out but went back in. He emailed me again from Washoe co jail in June. He told me he would be there for a year. I am attaching his emails. I can't locate him at Washoe co jail at this time. Those other attachments are what he led me to.

Thank you for your time

Why does not the Pope tell You This?
After the death of Your body, Your Soul will not fall into Heaven and not into Hell.
The stomach of the parallel world will eat your soul.
You are converted into energy and good, if not kinetic.
I offer you a way to avoid the death of the Soul after the death of the body.
Expensive. The work is performed with the help of the Holy Grail ritual.
The service is exclusive and is not provided by other participants.
The secret of simultaneous conversion to God and the Devil is the key to your salvation.

Почему Папа Римский не говорит Тебе Это?
После смерти Твоего тела, Твоя Душа попадет не в Рай и не в Ад.
Желудок параллельного мира съест твою душу.
Тебя преобразуют в энергию и хорошо, если не в кинетическую.
Я предлагаю тебе способ избежать смерть Души после смерти тела.
Дорого. Работы выполняются при помощи ритуала Святой Грааль.
Услуга монопольная и не предоставляется иными участниками.
Тайна одновременного обращения к Богу и Дьяволу - ключ к Твоему спасению.

CENTRAL DISTRICT OF CALIFORNIA

CIVIL MINUTES - GENERAL

Case No. CV 09-9254 -UA Date 4/28/10

Title Jo Anna Canzoneri McCormick v. Richard Allan McCormick et al

Present: The Honorable Audrey B. Collins/ Chief United States District Judge

R. Marshall	None	None
Deputy Clerk	Court Reporter / Recorder	Tape No.

Attorneys Present for Plaintiffs: Not Present

Attorneys Present for Defendants: Not Present

Proceedings: Order of Dismissal (In Chambers)

On December 17 2009, plaintiff submitted a pro se complaint. On December 17 2009, the court notified plaintiff in writing that the complaint was deficient due to the failure to pay the filing fee or furnish a completed and signed court-approved Declaration in Support of Request to Proceed Without Prepayment of Filing Fees form, including a completed Prisoner Authorization and Certificate of Authorized Officer, and a certified copy of the prisoner-plaintiff trust account statement for the last six (6) months (CV-60P). Plaintiff was advised that failure to pay the fee or file the completed Declaration within THIRTY days would result in dismissal of the action.

Since plaintiff has failed to provide the court with either the filing fee or a completed Declaration within THIRTY days, the action is dismissed without prejudice. Plaintiff may file a new action, but should include a filing fee or a Declaration in Support of Request to Proceed Without Prepayment of Filing Fees form with a new civil complaint to commence that new action. Because the present action is now dismissed, plaintiff should not file a Declaration in Support of Request to Proceed Without Prepayment of Filing Fees form or pay the

CIVIL MINUTES - GENERAL

Case No. CV 09-9254 UA Date August 6, 2012

Title Jo Anna Canzoneri McCormick v. Richard Allan McCormick et al

Present: The Honorable Audrey B. Collins, Chief United States District Judge

Angela Bridges	None Present	N/A
Deputy Clerk	Court Reporter / Recorder	Tape No.

Attorneys Present for Plaintiff:	Attorneys Present for Defendant:
None Present	None Present

Proceedings: PLAINTIFF'S LETTER (In Chambers)

On July 30, 2012, the Court received a letter dated July 25, 2012, from Plaintiff Jo Anna Canzoneri McCormick.

Under Local Rule 83-2.11, "Attorneys or parties to any action or proceeding shall refrain from writing letters to the judge, making telephone calls to chambers, or otherwise communicating with a judge in a pending matter unless opposing counsel is present. All matters shall be called to a judge's attention by appropriate application or motion filed in compliance with these Local Rules." Because Plaintiff's communication does not comply with the Local Rules, the Court will not file it but will instead return it to Plaintiff.

IT IS SO ORDERED.

Good afternoon –

Thank you for contacting the Department of Homeland Security Office of Inspector General. We do not have the statistics that you are requesting. I would suggest that you reach out to DHS Headquarters and they can help you get to the right location. A good email address for them is mediainquiry@hq.dhs.gov.

Thank you,

Hello,

I hope you are well; I believe you have worked with my predecessor. I'm writing from Harper's magazine, where I'm fact-checking statistics about the the number of illegal minors--and their age--asked to show up in court for their deportation hearings without a related adult or guardian.

I am not completely sure of what numbers you have; however, I know that you're as eager to describe and explain your work. Would it be at all possible to jump on the phone today or tomorrow to discuss? My deadline is end of day Friday, EST, but it shouldn't take more than 10 minutes.

Thank you so much for your time and your attention,

The Florida Attorney General's Office received your email regarding your concerns will possible FEMA fraud.

The first steps for a FEMA fraud victim to take is to file a report with your local police or sheriff's office, the U.S. Department of Justice's National Center for Disaster Fraud, and the U.S. Department of Homeland Security's Office of Inspector General. I understand that you already report the situation to the FEMA fraud hotline. We are forwarding your correspondence to all three agencies on your behalf to ensure they review the issue. The contact information to follow up with each is:

Manatee County Sheriff's Office
Phone: (941) 747-3011

There are additional steps you can take to detect, prevent and report identity theft. The Attorney

General's website includes information regarding identity theft at http://myfloridalegal.com/identitytheft. You may also contact the Federal Trade Commission's (FTC) Identity Theft Clearinghouse, the federal government's one-stop resource to report and recover from identity theft. Should you need to reach out to the FTC again, you may do so at:

Telephone: (877)438-4338

I was denied FEMA funds for hurricane Irma, only to discover later someone already had fraudulently filed a claim for my home address. I have tried to appeal to FEMA, reported to their fraud line, and nothing has come it. I'm not sure who else to reach out too.
